Annual Index for Volume 23
Author Index

Title Index

Number 1 **Page**

Experimental and Analytical Evaluation of Causes of Cracking in Precast Panel Highway Bridges 1

Echo-Doppler Angle Determination for Noninvasive Transmitral Blood Velocity Calculations in Normal and Porcine Bioprosthetic Mitral Valves 11

Developments in Ion Mobility Spectrometry 17

Practical Problems of Fiber Optics in Field Applications 29

Software Correction of the Analog-to-Digital Converter (ADC) Sequence Errors for the Cross-Phase Spectrum 41

Fundamental Differential Pressure Calibrations 47

Application of an In-Stream Elemental Analysis System 57

Control of Sulfur Burning and Acid Decomposition 67

Computerized Control Scheme Development of Distillation Columns Using Multiple Temperature Inputs 73

Number 2 **Page**

Safety Aspects of Analyzer House Installations 1

Development of Optimized Epoxy Graphite Implant for the Total Hip Joint 7

PC Board Test Signal Extraction 15

Interconnection Problems Associated with Small Dispersed Electric Generators and Inverter Devices 21

Chiller Optimization by Distributed Control to Save Energy 27

An Electric Sensor for Flame Speed Measurements 39

Small-Scale Dynamic Testing of Electrical Raceway Systems for Nuclear Power Plants 45

Single-Loop Multi-Lag Model-Reset Action 55

Instrument Installation Process Considerations 61

Title Index (Cont'd)

Number 1 **Page**

The Function Processor — An Advanced Enhancement for High-Performance Single-Loop Control 1
A Gateway Approach for the Integration of Programmable Controllers to Distributed Networks — An Applications Case History 15
Early Detection of Damage in Rolling Bearings 27
Validation of a Fossil-Fired Power Plant Simulation Model (SOFPAC) 33
Bonded Resistance Strain Gage Technology Solves Offshore Measurement Problems 43
Simulation of Environmental Conditions and Their Impact on Transmission Line Operation 51
Echocardiogram Processing and Classification Using Data-Dependent Systems Analysis 57
The Optical Transfer Function of Silicon Solar Cells: Theory and Experiment 65
The Use of Exception Transmission in a High-Performance Distributed Control System 73

Number 4 **Page**

New Approaches to Transducer Excitation and Conditioning 1
Performance Evaluation of a Redundant Inertial Measurement Unit 9
Requirements Definition for Process Control Systems 17
Test Results of Simulated Satellite Slip Ring Experiments 27
Fiber Optic Motion Sensor 39
Control System Checkout Simulator 45
Robot Activity Simulation and Plan Testing 51
Decouplers for Furnace Firing Pattern Control 55
Relationships Between the Electrocardiogram and Phonocardiogram: Potential for Improved Heart Monitoring 59
